# The UK's No.1 for GOALS and more!

**Samba Sports goals are pitched up on pitches in every country, our corner flags can be found in all corners of the world, our gloves are saving goals all over the globe. Samba Sports, is quite simply, synonymous with football. For a brand that has been the premier choice for so many years though, what you may not be aware of, is the development of a brand-new range of products, including: training aids, bibs, medical bags, accessories and luggage, plus just about anything else a club could use to improve the performance and fitness levels of its players.**

Although these products are an extension to the core range that Samba fans are already familiar with; the science and technology behind them is based on decades of experience and feedback from players with Premier League and International experience. And, whichever product or range you choose from Samba, the vision has always been, and will always be to

become the brand of choice for everyone who loves the game, from grassroots to football league.

So, if you want to perform at the highest level you want Samba products to bring out your best.

## Samba Science

Nurture the natural talent of a player by providing them with the very best equipment, combined with the ultimate training routines, then practice, practice, practice. This ethos is exactly what Samba Sports is based on, and the science of sport a part of everything we do. The design and manufacture of the Samba range is backed by people with real experience who care about the customers we supply to and the reputation of our brand.

Our specialist development team hasn't just designed one range of gloves and balls, they have designed and produced multiple new ranges - each one better than the last, as new materials and manufacturing develops; so the Samba Sports catalogue evolves.

## OVER 950,000 sold worldwide.

## What's NEW?

### MATCH BALLS

#### The science of Infiniti footballs

Give a group of children a ball and a place to play and they are happy. They discover that fitness is fun, they understand the importance of being part of a team, they learn their role in the team - a simple football is all it takes.

When Samba Sports started to design this range of footballs we started with a strategy that the manufacturing team had to meet. With over a decade of design and development experience for sporting equipment, the checklist had to meet both grassroots and league-standard game play, plus everything in between. The Infiniti collection includes the superb IMS-approved match ball, durable training balls and a futsal ball. Each is available in the size to suit the target age group; size 3 for children up to the age of 8; size 4 for the age range of 9-14, the adult game is typically size 5.

### TRAINING AIDS

#### Find the fun in the functional

Training is an essential part of team sports, but without the thrill of a win or the support of a crowd, lengthy sessions can become repetitive and tiresome.

Make every practice perfect with a variety of top quality training aids. These not only help to improve agility, positioning, directional change, speed and stamina - in fact everything a player needs to play the game at the highest level.

Kit such as boundary poles, speed ladders, agility hurdles, cones, markers, mannequins, rebounders and so much more. Every club has the power to bring their training routines to life, making training more varied and enjoyable. Built to last, all Samba Sports training aids are designed for simple installation, storage and durability.

**See PAGE 26-35.**

**Samba goals have been the players' choice for almost 25 years.**

From grassroots to International level, the Samba insignia can be seen everywhere from school teams, to local clubs, to semi-professional leagues – the high specification and standard of the goals also mean they are suitable for FA matches.

This year, two new additions have made their way onto an already impressive team sheet:

#### **Samba FOLD-A-GOAL**

A brand-new concept, made in the UK, that can be made into four different sizes. Easy to assemble, maintain, and transport (or can be left outside in all weather conditions); the FOLD-A-GOAL is constructed from 68mm Ø tubing, with reinforced corners, 2.5mm net cord (FA guideline), and 100mm x 100mm profile to meet new head entrapment requirement.

#### **Samba SPEED GOAL**

The ideal training goal for all surfaces; with rubber feet for maximum stability in indoor surfaces and can be transformed into a team shelter or rebounder in less than three minutes. The Samba Speed Goal is available in four different sizes and is constructed from steel, with 2.5mm net cord (FA guideline), and 100mm x 100mm profile to meet new head entrapment requirement.

#### **The stats are impressive:**

- To date we have supplied over 950,000 goals worldwide.
- Over 60 types of goals supplied, including: FA standard Match Goals, Trainer Goals, Futsal Goals, Soccer / Rugby Goals, Gaelic / Hurling Goals, Aluminium Folding Goals, PlayFast Goals, Pop Ups, Pugg Goals and Conversion Kits.
- Goals can be used on any surface.
- High impact uPVC and aluminium means our goals are strong, lightweight and portable.
- Samba goals are sold into 20 countries around the world.
- Full supply of accessories - nets, ground anchors, clips and pegs.
- Made in the UK.
- All our goals are independently tested every three years to comply with relevant Standards.
- To comply with FA requirements Samba Sports carries the latest ISO standard (ISO9001:2015) and £5 million for both public and product liability insurance. This enables the company to comply with FA requirements and also enables them to sell into the education sector and professional football clubs.

**Made in the UK**

Price: £49.99

**PLAYFAST GOALS - raising the bar in goal technology**

Samba PLAYFAST Match Goals with folding corners features an innovative fast folding corner joint by Mitre that enables the PLAYFAST goal to be assembled in less than 60 seconds.

This product brought together Samba's knowledge of goal manufacturing and Mitre's innovative technology to create the PLAYFAST goal. The technology enables the goal to be folded away and stored quickly and

efficiently, benefiting recreational users at home and grassroots clubs with limited storage facilities. Once the net is attached, the goal can be collapsed and stored with the net in place – doesn't need removing.

Fully portable - Free standing - Highly flexible - Use on any surface - Virtually maintenance free - Fits in an average sized family car - High impact uPVC - Light and easy to assemble.

**BEST

**The NEW Samba FOLD-A-GOAL offers a home from home experience when it comes to the standard and specification of the goal and net.**

Manufactured in the UK, the FOLD-A-GOAL is a brand-new concept from Samba Sports. It is completely maintenance free so can be left outside in all conditions (a must for the British climate) but, most importantly, features a new system that enables the goal to be folded away and then re-assembled quickly and easily without tools. So, whether your next match is one pitch

over or in a totally different town, there'll be no jumpers as goalposts required.

The Samba FOLD-A-GOAL can make 4 multi sizes - 12 x 6, 12 x 4, 8 x 6 and 8 x 4. Every FOLD-A-GOAL is made from 68mm (diameter) tubing, plus 100mm x 100mm net profile to meet the new head entrapment requirement. **One net fits all goal sizes.** FA-approved 2.5mm cord, and reinforced corners at the connecting joints.

All Samba FOLD-A-GOALS come complete with a 12 month-guarantee (including expected wear and tear).

Product code: G03FOLD  
Price £159.99

## SPEED GOAL - Super-compact storage, ready in 3 minutes

The NEW Samba Speed Goal does exactly what it says on the tin. Up and ready in just 180 seconds, this piece of kit takes just one person to assemble, and no tools. Totally maintenance free, and complete with a 12-month guarantee, the steel frame includes rubber feet so is suitable for both indoor and outdoor surfaces

with maximum stability. The Samba Speed Goal features the IDP (Impact Dissipating Technology). The 100mm x 100mm net profile is designed to meet the new head entrapment requirement and made with FA-approved 2.5mm cord is included with every Speed Goal, and the whole thing folds away into a separate carry bag.

Samba Speed Goal 12' x 6'.  
Product code: SPEED12X6  
Size: 12ft wide x 6ft high x 3ft 7" deep.

Supplied with hook and loop fastenings for safety.

**Size: L:122cm W:30cm D:23cm**

**Please note:** These bags are NOT suitable for the 8' x 6' Home Goal Plus.

# TRAINING AIDS

Premier training aids are no longer the reserve of professional teams.

Samba training aids have levelled the playing fields when it comes to all tiers of football now, from grass-roots to international competitions. And, whereas in the past, the way a team had trained could be immediately noticeable as soon as they took to the pitch, the standard of practice equipment on offer now means that there's all to play for, even when the stakes are high.

New training aids to the 2019 roster include new free kick mannequins, round flat markers, pitch markers and tactic boards.

SAMBA Sports would like to thank Burnley Football Club and Preston North End for the use of its outstanding facilities for photography purposes.

**Price: £14.50**

# INFINITI BALLS

## Samba INFINITI Footballs – can you kick it?

We may not be able to reinvent the wheel, but you can improve a ball.

The beautiful game has changed in many ways over the decades. Football can be played inside or outside, day or night, on full or half pitch, by men, women, and children – one thing that has never changed though is that you can't have a match without a ball. The footballs we use today however have changed in many ways; and there is no 'one ball fits all' especially when it comes to Samba. The speed and excitement of today's game is all to do with the weight, construction and outer finish of the ball. Made in a range of sizes and finishes to suit the intended use and playing surface, from high performance match balls, to lite and futsal balls, Samba INFINITI balls score high with players of all layers.

The current kit list for balls includes 18 variations with four new match balls for 2019 and mini footballs for our smaller players. Going into the 2019 - 2020 season, Samba Sports is also proud to have sponsored its first league; Nottinghamshire Senior League in conjunction with M3C Sports.

## CUSTOMISED TRAINING BALLS

Now you can customise your match day and training footballs

The superb designs in the Samba ball range can now be enhanced by the addition of your own club or sponsors logo. All balls are available in sizes 3, 4 and 5. To find out more please contact your local stockist.

# GOALKEEPER GLOVES

The Science of Samba has taken years to perfect the goalkeeping glove; using the experience and expertise of some of the world's finest sportspeople, designers, and manufacturers.

The development of special materials to keep comfort in and goals out, combines optimum grip and cut for the best game, plus protection and ergonomics for the perfect fit.

Goalkeeping gloves by Samba helped 'The Beast' Brian Jensen achieve his first championship-winning trophy in a long, illustrious career spanning Burnley, West Bromwich Albion, Mansfield Town, and NIFL Crusaders. They are also the preferred choice of Sheffield Wednesday's Kieren Westwood, Barnsley's Adam Davies, and Tranmere Rovers' Scott Davies. Alfie Roberts of Derby County also debuted for England Under 15s wearing none-other-than Samba.

*'I like a glove that offers all the technical qualities but with comfort and safety built in. Some gloves simply don't feel right but Samba gloves feel like they've been made for me.'*

Keiren Westwood  
Sheffield Wednesday FC  
and Republic of Ireland.

10: GL001000

**Price: £55.00**

Designed with comfort in mind for keepers, the surround cut style is an exceptional fit which is preferred by many of our professional keepers. The Samba Infiniti Quartz Pro has fewer seams than conventional glove designs with the option for the palm to wrap around the backside of the glove. With fewer seams there are less stress points on the glove.

**Material:** The glove palm is a durable 3mm quartz latex finish which provides excellent grip especially in wet conditions. A German latex backhand featuring the stylish Samba INFINITI branding is supported by an elasticated wristband with built-in flex and pull tightening.

**Colours:** White, Blue, Lime Green, Black

**Infiniti Gloves DUO PALM AQUA ROLLFINGER**

**Sizes:**  
8: GL600800  
8.5: GL600850  
9: GL600900  
9.5: GL600950  
10: GL601000

**Price: £55.00**

The new Get-it Latex Palm gives an improved grip in wet conditions. For added grip security the latex bonded strips on the inside of the palm keeps the hand in a more stable position especially in wet, hot and sweaty conditions. The rollfinger cut design is, for many keepers, the ideal solution ensuring that ball and inner latex surface are always in contact when receiving or throwing the ball.

**Material:** The glove palm is a durable 3mm Get-it latex finish which provides enhanced grip in wet conditions. A German latex backhand featuring the stylish Samba Infiniti branding is supported by an elasticated wrist band with built-in flex and pull tightening

**Colours:** Fluo Green, Black

# ACCESSORIES

**Fail to prepare, and prepare to fail.**

Accessories from Samba Sports are the final touch for any training session or football match. From a pre-match changing room pep talk to a last-minute change of tactics when your backs are against the wall, from a seasons worth of strategy in a session planner to a quick sketch on the white board when there's been an alteration in the line-up. Planning before, during, and after the match is absolutely essential. As well as white boards and planners though, water bottles, drinks carriers, kit bags, corner flags, medical kits, cards, and whistles, mean you turn up to a fixture with all the fittings you need to look the part and take the game.

**Coach's Notepad**
